

EDUCATION

Year	Degree/Exam	University	CGPA/%
2028	Bachelor of Technology	IIT Kharagpur	8.67
2024	CBSE Grade 12	N.C. Jindal Public School	93.40%
2022	CBSE Grade 10	N.C. Jindal Public School	96.40%

INTERNSHIP & PROJECTS

Ather Energy | Business Strategy | Internship

December'25

Objective: Diagnose profitability challenges and design a capital-disciplined, scalable growth strategy for Ather Energy improving economics

- Diagnosed profitability drag driven by **asset-heavy expansion and fixed-cost intensity** within a premium EV mobility operating model
- Designed a **profit-first growth strategy** combining consumer focus, ring-fenced fleet operations, and scalable software data monetisation
- Built a **capital discipline roadmap** projecting **EBITDA breakeven in 3–4 years** with sustainable long-term **300–500 bps margin expansion**

AI-enabled ERP Procurement Optimization System | Self Project

November'25

Objective: Empower ERP systems with Agentic AI to autonomously optimize procurement workflows and enhance decision-making

- Designed an **AI-driven ERP architecture** integrating demand forecasting, supplier evaluation, and automated purchase order generation
- Evaluated forecasting approaches using procurement and demand data, achieving a **20–25% improvement** over baseline heuristics
- Built an **explainable AI framework** using SHAP and LIME to ensure model transparency, auditability, and regulatory compliance

Unified Quality Control Across Supply Chain | Case Study | Open IIT, Supply Chain

September'25 - October'25

Objective: Build a unified, data-driven quality control framework across the supply chain and procurement lifecycle processes efficiently

- Integrated **Six Sigma, Lean, FMEA, SPC, and QFD** into a unified end-to-end quality management and process control framework
- Reduced **defect propagation** through comprehensive process mapping and systematic root-cause alignment across supply chain stages
- Designed a **closed-loop QC dashboard** powered by data-driven quality metrics for continuous monitoring, feedback, and improvement

COMPETITIONS

National Finalist | Indian Case Challenge (ICC) 2026

January'26

Objective: Design an ESG-integrated strategy for HUL to enable margin protection, disciplined capital allocation, and sustainable growth

- Designed a **margin-protective growth strategy**, shifting focus from volume-led expansion to disciplined **risk-adjusted capital allocation**
- Built **portfolio and channel-discipline models** to analyse Q-commerce cannibalisation patterns and quantify resulting margin impact
- Mapped **ESG initiatives to financial outcomes**, enabling traceable supply chains, transparent reporting, and audit-ready cash-flow visibility

Winner | ProduScope – Product Management Competition, IIT Guwahati

September'25

Objective: Design a student-focused fintech solution to improve loan accessibility, enhance financial literacy, and enable scalable adoption

- Conceptualised “**eduFin**”, a student finance app addressing credit access gaps and low financial awareness among college students
- Prioritised the product roadmap using the **MoSCoW framework**, balancing loan discovery, eligibility checks, and financial literacy features
- Designed a **go-to-market strategy** targeting **500 signups in Month 1** with **CAC ≤ ₹200**, leveraging campus-led distribution and referral loops

POSITIONS OF RESPONSIBILITY

Associate Manager | Public Relations, Events, Web Development | Entrepreneurship Cell | IIT Kharagpur

November '25 - Present

- Led pan-India outreach for GES, managing a first-year team and coordinating with startup founders, investors, and ecosystem stakeholders
- Onboarded **40+ speakers** from unicorns and soonicorns across the startup, product, and venture investment ecosystem nationwide
- Managed **E-Cell's web presence**, including the main website, GES website, and associated digital portals with the tech team infrastructure

Associate Member | Events, Web Development | Entrepreneurship Cell | IIT Kharagpur

June'25 - November'25

- Led operations for **Local Startup Meetup (LSM Delhi)**, hosting startup founders, investors, and ecosystem leaders for key discussions
- Organized startup **pitching sessions for 10 shortlisted ventures from 100+ applicants**, enabling funding and mentorship opportunities
- Managed **E-Cell digital platforms**, including **Empresario, KGP Forge, and the EAD-LSM website** with the technical team infrastructure

Certifications and Achievements

IBM Product Manager Professional Certificate – IBM (Coursera)

- Learned **end-to-end product lifecycle management**, including ideation, requirement gathering, and roadmap planning
- Worked on **agile frameworks (Scrum, Kanban)** and simulated sprint planning, backlog prioritization, and user story creation
- Developed **product strategy and metrics thinking** through case studies focused on user needs, KPIs, and data-driven decision making

SQL for Data Science – University of California, Davis (Coursera)

- Wrote **complex SQL queries** using **JOINS, subqueries, and window functions** to analyze datasets with **100K+ records**
- Performed **data extraction, filtering, and aggregation** to generate structured insights for business and analytical use cases
- Built **end-to-end SQL workflows** for data analysis, improving query efficiency and reducing manual processing time by **25–30%**
- Won **1st Place in General Championship (Tech)**, IIT KGP, competing across Product Management, Case Study, and Ad Design events
- Secured **1st Runner-Up in Weightlifting at the Inter IIT Sports Meet**, competing among top athletes from IITs across India nationwide
- Achieved **AIR 6038 in JEE Advanced 2024** and ranked within the **Top 2% in JEE Mains 2024** among over 1 million candidates

SKILLS AND EXPERTISE

- Programming & Frameworks:** Python, Java, C/C++, JavaScript, PostgreSQL, React, Node.js, FastAPI, Pandas, NumPy, Scikit-learn, OpenCV
- Tools & Platforms:** Git/GitHub, Power BI, Google Analytics, Microsoft Clarity, Claude, Flutter, Antigravity, Postman, Figma, Canva, Jira
- Additional Skills:** Product Analytics, KPI Tracking, Funnel Analysis, Business Requirement Analysis, Market Research, Data Visualization
